

## Zai Lab Establishes Oncology Scientific Advisory Board

August 13, 2025

- Newly formed Advisory Board comprises world-class leaders in oncology to support advancement of Zai Lab's robust oncology products and pipeline

SHANGHAI & CAMBRIDGE, Mass.--(BUSINESS WIRE)--Aug. 13, 2025-- Zai Lab Limited (NASDAQ: ZLAB; HKEX: 9688) today announced the creation of its Oncology Scientific Advisory Board (SAB). The newly formed Oncology SAB is comprised of distinguished oncology leaders and will support the advancement of the Company's robust oncology products and pipeline, including multiple internally developed investigational therapies.

"We are honored to bring together this esteemed group of oncology leaders who will support our continued development and advancement of innovative treatment options for patients globally," said Rafael G. Amado, M.D., President, Head of Global Research and Development, Zai Lab. "The formation of this Board is an important step for Zai; we know our clinical programs will benefit tremendously from the guidance and perspective of this highly regarded and experienced group of individuals."

[Zai Lab's Oncology SAB](#) comprises the following:

**Lieping Chen**, M.D., Ph.D., is a United Technologies Corporation chair in cancer research, professor of immunobiology, dermatology and medicine at the Yale University School of Medicine.

**Richard S. Finn**, M.D., is director of the Signal Transduction Program in the Jonsson Comprehensive Cancer Center at University of California, Los Angeles (UCLA).

**Thomas F. Gajewski**, M.D., Ph.D., directs the Melanoma Oncology Clinic and leads the Immunology and Cancer Program at the University of Chicago Comprehensive Cancer Center.

**Melissa L. Johnson**, M.D., directs lung cancer research at the Sarah Cannon Research Institute.

**Matthew Krebs**, M.D., Ph.D., is a clinical senior lecturer in experimental cancer medicine at the University of Manchester and leads early phase clinical trials at The Christie NHS Foundation Trust, Manchester, U.K.

**Patricia LoRusso**, M.D., D.O., is director of the Early Phase Clinical Trials Program and Associate Center Director of Experimental Therapeutics at Yale Cancer Center.

**Michael T. Lotze**, M.D., FACS, is professor of surgery, immunology and bioengineering, and director of the DAMP Laboratories at the University of Pittsburgh Medical Center Hillman Cancer Center.

**Timothy Yap**, M.B.B.S., Ph.D., FRCP, is a medical oncologist, physician-scientist and professor at the University of Texas MD Anderson Cancer Center.

### About Zai Lab

Zai Lab (NASDAQ: ZLAB; HKEX: 9688) is an innovative, research-based, commercial-stage biopharmaceutical company based in China and the United States. We are focused on discovering, developing, and commercializing innovative products that address medical conditions with significant unmet needs in the areas of oncology, immunology, neuroscience, and infectious disease. Our goal is to leverage our competencies and resources to positively impact human health worldwide.

### Zai Lab Forward-Looking Statements

This press release contains forward-looking statements relating to our future expectations, plans, and prospects for Zai Lab, including, without limitation, statements relating to our prospects and plans for developing and commercializing our oncology products and pipeline. These forward-looking statements may contain words such as "aim," "anticipate," "believe," "could," "estimate," "expect," "forecast," "goal," "intend," "may," "plan," "possible," "potential," "will," "would," and other similar expressions. Such statements constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical fact or guarantees or assurances of future performance. Forward-looking statements are based on our expectations and assumptions as of the date of this press release and are subject to inherent uncertainties, risks, and changes in circumstances that may differ materially from those contemplated by the forward-looking statements. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including but not limited to (1) our ability to successfully commercialize and generate revenue from our approved products, (2) our ability to obtain funding for our operations and business initiatives, (3) the results of our clinical and pre-clinical development of our product candidates, (4) the content and timing of decisions made by the relevant regulatory authorities regarding regulatory approvals of our product candidates, (5) risks related to doing business in China, and (6) other factors identified in our most recent annual and quarterly reports and in other reports we have filed with the U.S. Securities and Exchange Commission (SEC). We anticipate that subsequent events and developments will cause our expectations and assumptions to change, and we undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as may be required by law. These forward-looking statements should not be relied upon as representing our views as of any date subsequent

to the date of this press release.
